

At PVH, we believe corporate responsibility helps to strengthen our organization by managing risk, maximizing efficiency, and driving value in a rapidly changing world. This is especially clear in our relationships with suppliers. Building stable, long-term supplier relationships increases accountability and efficiency in our supply chain. It also allows us to be transparent about where we source. Greater transparency will deepen insight into the industry’s social and environmental impacts and help us to enhance the quality and efficiency of our supply chain.
